***New faucets meeting the NSF 61 standard will have NSF 61/9 stamped on the new faucet's cardboard box.**

(Due to recent regulations, faucet manufacturers decreased or eliminated the lead in residential kitchen faucets, bathroom faucets, bar faucets, drinking fountains, and icemakers. The national standard for certifying plumbing fixtures "lead free" status is determined by the National Sanitary Foundation (NSF) – the standard is International Standard 61 – Section 9.)

All efforts are to be made to avoid accepting any products that may contain lead.

If in doubt, dispose of the product in a safe manner.

Other items may be accepted at the discretion of the ReStore staff. Some metal objects may be taken with the intention of recycling the scrap metal.

Material Donations Do Not Take:

- Clothing
- Lead paint
- VHS tapes
- Hospital Beds
- Tube TV's
- Unmarked containers
- Unframed glass
- Used Garbage disposals
