CURRENT MOOD

What a smart looking table! Its sleek 1970's geometry is a commitment to quality craft, modern moods, and unique shapes. Adding chairs of metal, upholstery, or white washed wood make it the ideal spot for morning coffee or an elegant evening dinner party. Time to freshen up your breakfast nook!

PLAY SQUARE

This colorful glass tile is mesmerizing, to say the least. Pastel peach, sage green and milky white palettes work as neutrals with an edge. We suggest using this tile as a single wall accent in a powder room, or perhaps as one shower wall for major impact. Tile like this feels soothing and sweet to us!

LIGHT ON

Creating atmosphere is at the top of our agenda for home decor projects. This white, perforated dome fixture would provide an ambiance of light if suspended but it could also work splendidly as a flush mount. Laundry rooms, hallways, entrance foyers, small bathrooms; this would be our first pick, and yes, we are smitten.
