

Meet Rachel

Rachel is a single mother of three children has been employed by Conway Medical Center since December of 2020 as a Medical Practice Assistant. She currently resides with her parents in a small 3-bedroom home in Conway. After living in an unhealthy apartment, in need of repair and with mold issues, Rachel is on her way to make a better life for her and her family. A new home would give her the space needed to be a loving, Godly and nurturing her family...and a place of her own.

Rachel is looking forward to building her new home and learning some new skills as she goes through the Homebuyer Program. Her high points in her life are her three children, being accepted into the Homebuyer Program, finishing college and working in a career she enjoys. Her family enjoys going to church together, to the movies, the park and taking trips.

Her experience in the program is getting better since she learned how to use a hammer! The first thing she wants to do in her new home is have it blessed by her Pastor, then have a family gathering. Home to Rachel is a place where she can raise her children and make memories. A place full of love.

A favorite bible verse is from Mark 9:23, "If you are able!" all things are possible to one that believes."

She would like to thank all for their time and sacrifice. "I'm really grateful and I do appreciate them. I pray God keeps a blessing on them."
